The achievements of the 2010-2011 year include:

Peter reviewed future projects that the board is working towards presenting to homeowners in near future. New parking lot striping and asphalt repair is planned out and schedule in the near future. Recycling campaign will begin now that the recycling dumpsters are in place. The largest project the board is working on is a major refurbishing project for all interior hallways in all buildings with an estimated budget of over \$300,000.00. The refurbishing includes new carpet, paint, new ceilings, electrical upgrades, new fire alarms systems, new energy efficient LED light bulbs in new fixtures throughout hallways, as well as upgraded fire panels. The goal for this project (like the boiler room project) is to fiancé the project without impacting condo fees. The time line in mind is November of this year into the Spring. More details will be provided to home owners as quotes and planning continue by the board members.

- **FINANCIAL REPORT/BUDGET 2011-2012**

Peter reported that there was no increase in the condominium fees for the 2011-2012 fiscal year as the budget was consistent with last year. Foreclosures and receivables also remained higher than normal, but not unable to be managed. Financials can be found on our website: www.sequelddevelopmentnh.com for anyone wanting more detailed information.
